VARIABLE REACH TRUCK

Meclift™ ML1812R is a unique multipurpose machine. It is the only machine in the lifting capacity range of 18 tons, that can be operated inside containers.

It moves swiftly in confined spaces, such as warehouses and cargo vessels. In addition to heavy cargo lifting, ML1812R is perfect for practically any other material handling needs. Different kinds of Meclift attachments increase opportunities to use one machine for multiple purposes. It lifts 20-foot containers from fork pockets and stacks them up to 3-high.

A hydraulically movable cabin ensures excellent visibility even when handling bulky objects. ML1812R is an environmentally friendly, solution. Less work machinery on your yard means less fuel consumed. It also means more space.

MECLIFT

"We use two Meclift™ ML1812R machines for loading and unloading steel coils into and out of containers in our port. These machines are very unique in design. Thanks to their low height and good
